t.me/Kolchyk · Ukraine

Data-driven transformation leader with **12+ years** in pharma and e-commerce, turning analytics into a competitive advantage. I build a **single source of truth**, automate KPIs, and grow **data-driven teams & culture**.

KEY ACHIEVEMENTS

12+

years driving data transformation

600+

BI platform active users

70+

dashboards in production

100k+

annual dashboard views

10+

AI solutions for 1000+ users

CORE SKILLS

Data & BI

Power BI · Microsoft Fabric · SAP S/4HANA · SAP Analytics Cloud · DWH / ETL · Data Modeling · KPI Automation · Dashboarding

AI & Machine Learning

Sales Forecasting ML · LLM Bots · AI Productivity Tools · Predictive Analytics · Advanced Analytics · Automation

Governance & Leadership

Digital Transformation · Data Governance · Single Source of Truth · Team Building · Data Culture · Business Analysis · IBP / Demand Review

Commercial Analytics

RFM · CLV · Cohort Analysis · Segmentation · A/B Testing · Attribution · Pricing & Margin · Funnel Analytics

EXPERIENCE

NAFTOGAZ OF UKRAINE

Mar 2026 — Present

Chief Data & Innovation Officer

- ◆ Own the company's **enterprise-wide data strategy** — covering the full data lifecycle, from creation to archival, across the Naftogaz Group.
- ◆ Stand up a group-wide **Data Governance Framework** — policies, standards and processes for data quality, security, availability and consistency, with data owners and stewards in every business unit.
- ◆ Drive the design and build of a **unified corporate data platform** on **Microsoft Azure & Microsoft Fabric**.
- ◆ Define the **roadmap to modernize and integrate** legacy analytics and data warehouses (incl. **SAP BO/BW**) into the target architecture.
- ◆ Establish from scratch and lead a **Data & Analytics Center of Excellence** — the central competence hub for the whole group.
- ◆ Recruit, mentor and grow a team of **data engineers, analysts, BI developers and data scientists**, scaling a data-driven culture through self-service BI.

DARNYTSIA

Jan 2026 — Mar 2026

Business Analysis & Client Services Lead

- ◆ **Digital ecosystems**: led patient-centric digital products and loyalty programs for HCPs and patients.
- ◆ **Strategic analysis**: identified market growth opportunities and optimized corporate resources.
- ◆ **Innovation**: bridged internal data capabilities and external customer needs for competitive advantage.

Head of Analytics and Digital Innovation

- ♦ Led a **4-year transformation** of the Analytics & Digital Innovation department — a 7-person team turned into a key business driver.
- ♦ Modernized enterprise data: migrated P&L and CF to **SAP S/4HANA & SAP Analytics Cloud**, digitized IBP and Demand Review, unified data from distributors and **13,000 pharmacies** into a single source of truth.
- ♦ Built a unified BI platform on **Power BI & Microsoft Fabric**: governance, standardized models, scaled to **600+ users, 70+ dashboards, 100k+ annual views**.
- ♦ Replaced Excel packs with automated KPI pipelines — cycle time cut from **two weeks to three days**.
- ♦ Advanced analytics & AI: deployed a **sales-forecasting ML model** and an AI portfolio including LLM bots and productivity tools.
- ♦ Established **data governance**: data owners & stewards, unified glossary, role-based access controls.

Head of Analytics and CRM Department

- ♦ Stood up the company's **first BI platform** end-to-end — data model, ETL, validation and access controls — giving sales and marketing a single analytics backbone.
- ♦ Delivered a **360° view of the customer funnel** and unified CRM analytics — dashboards for sales, marginality and channel effectiveness.

Head of Corporate Analytics

- ♦ Aligned the **DWH concept for 27 countries**, integrating ERP, PIM/TecDoc/VIN, logistics and web analytics into a scalable target model.
- ♦ Assessed promo incrementality and ran **A/B tests** for promotions and pricing in a multi-market environment.
- ♦ Implemented margin control & management reporting — leakage alerts, price index, ROMI panel, sensitivity map.

Head of Analytics and Data Monetization

- ♦ Founded the **BI function from scratch** — DWH/ETL and metric standards that became the analytics foundation for the business.
- ♦ Consolidated online/offline sources (CRM, e-commerce, POS) into an **end-to-end funnel**: traffic → sessions → conversion → repeat.
- ♦ Unified customer analytics: **RFM, CLV, cohort analysis and segmentation**.
- ♦ Set up attribution and incremental A/B testing — increased **ROAS & conversion** while lowering CPA.

CRM Analyst

- ♦ CRM analytics within one of Ukraine's largest retail groups — the foundation of a data-driven career.
